DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 10 is rejected under 35 U.S.C. 102(b) as being anticipated by Penn et al (US 6,033,435). Penn et al teaches a method of preparing a bifurcated vessel having a bifurcation, a main vessel, and a side branch vessel, for an interventional procedure, comprising the steps of providing an elongate catheter (195, 200); providing a tracking guide wire lumen for receiving a tracking guide wire (185), the tracking guide wire lumen extending through at least a portion of the catheter; providing an integrated guide wire lumen for receiving an integrated guide wire (190), the integrated guide wire lumen extending through at least a portion of the catheter, wherein the tracking guide wire lumen and the integrated guide wire lumen run substantially parallel to each other throughout their lengths, and the tracking guide wire lumen and the integrated guide wire lumen do not move apart with respect to each other; advancing the catheter over the tracking guide wire to a position proximal of the bifurcation in the main vessel; advancing the integrated guide wire through the integrated guide wire lumen and into the side vessel branch; removing the catheter from a patient's vasculature; providing a retaining element (10) for retaining the tracking guide wire and the integrated guide wire

in a spaced apart relationship proximal to said elongated catheter; and maintaining the position of the tracking guide wire relative to the integrated guide wire with the retaining element (Figure 12).

Response to Arguments

Applicant's arguments with respect to claim 10 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
